About

Passionate web developer focused on continuous learning and growth. Seeking an opportunity to join a dynamic team where I can enhance my skills, contribute to impactful projects, and collaborate with experienced professionals. Open to relocation.

Education

University of Mostar   *Mostar,* **BiH**
Bachelor of Computer Science   Oct. 2020 – Oct. 2024

Experience

Freelance Web Developer   Jun. – Oct. 2024
- Maintained a small business React website
- Migrated to TypeScript, enhancing scalability and optimization
- Refactored codebase to improve readability
- Implemented SEO best practices, increasing site visibility and search rankings

Projects

Finance Dashboard / *React, TypeScript, Node.js, TensorFlow.js.*   Oct. 2024
- Developed a finance dashboard with AI-driven predictions using TensorFlow.js, featuring minimalistic frontend design and a backend for managing transactions and products.
- Built a custom RESTful API for CRUD operations and user authentication, enabling users to track finances and manage product transactions effectively.

Car Rental / *React, Node.js, Express, MongoDB*   Jun. 2024
- Developed a full stack car rental application with a user-friendly frontend and a backend for managing vehicle rentals and reservations.
- Implemented a custom RESTful API with role-based authentication, allowing users and admins to perform secure CRUD operations on vehicles, reservations, and user accounts.
