ABOUT

As a web developer with three years of focused learning experience and a Bachelor's degree in Computer Science, I bring a strong technical foundation. In addition to my technical skills, I am a strong communicator who thrives in collaborative, team-oriented environments. Through hands-on projects, I have refined my problem-solving abilities and capacity to work effectively with others. Driven by a passion for continuous learning, I am highly adaptable and eager to contribute my skills while learning from colleagues in a professional setting. I am open to relocation, as well as hybrid or remote work opportunities, and flexible in adapting to various work environments and requirements.

EDUCATION

University of Mostar   **Mostar, BiH**
Bachelor of Computer Science   Oct. 2020 – Oct. 2024

EXPERIENCE

Freelance Web Developer   Jun. – Oct. 2024
- Honed skills in full-stack development by creating diverse web applications
- Adopted Agile methodologies, using JIRA for sprints and task management
- Practiced version control and CI/CD using Git and GitHub for collaborative coding

PROJECTS

Finance Dashboard / *React, TypeScript, Node.js, TensorFlow.js.*   Oct. 2024
- Developed a finance dashboard with AI-driven predictions using TensorFlow.js, featuring minimalistic frontend design and a backend for managing transactions and products.
- Built a custom RESTful API for CRUD operations and user authentication, enabling users to track finances and manage product transactions effectively.

Car Rental / *React, Node.js, Express, MongoDB*   Jun. 2024
- Developed a full-stack car rental application with a user-friendly frontend and a backend for managing vehicle rentals and reservations.
- Implemented a custom RESTful API with role-based authentication, allowing users and admins to perform secure CRUD operations on vehicles, reservations, and user accounts.

TECHNICAL SKILLS

Core skills: JavaScript, TypeScript, React, Node.js, HTML, CSS, SQL
Additional skills: Python, Java, Express, Next.js, NestJS, Tailwind CSS, TensorFlow.js
Developer Tools: Git, Docker, GitLab, VS Code, Jira, Figma, Jest, Vitest, AWS, Azure
Certifications: freeCodeCamp - Responsive Web Design, Front End Libraries, Relational Database
Languages: Croatian (Native), English (C2 - Proficient), German (A1 - Beginner)
